

SON SAFARIS™

WHERE GOD COMMUNICATES THROUGH HIS CREATION

Son Safaris Christian Mission to Africa

Why are our teams unique?

We help a Private Game Reserve with land and animal conservation projects. Our teams are hosted on safari by Son Safaris' director/safari ranger, Fledge Fiamingo, without the additional itinerary and cost to do so.

Who do we serve with?

We have built relationships with *Welgevonden Private Game Reserve* where our teams stay, as well as at *Waterberg Living Museum* and *Save the Waterberg Rhino* to partner with community outreach and environmental education.

Our Creation Care teams care for God's creation by:

- Radio collaring & microchipping endangered species including the wild dog, cheetah, elephant, and rhino
- Assisting with grass surveys and game transects along with other land and animal conservation projects

Where do our teams stay?

For the duration of their trip, our teams stay on a Private Game Reserve conveniently located three hours north of Johannesburg, South Africa. Our teams fly direct from Atlanta, GA to Johannesburg.
